

CONFLICT OF INTEREST

At Ability Housing we believe that working together with everyone in your support circle is important. However, we understand that you might want to change the people that support you in your home.

If you want to talk about changing the people that support you, you can contact us in many ways, and we will do everything we can to make sure that it does not impact on the house you live in.

If you are not happy	
You can let us know	
You can write us a letter	
And send it in an email	
Or in the post
